Seminar description

This seminar provides an in-depth look at the Dilemmas in spine practice and latest advances. It aims to equip young spine surgeons and medical professionals with a structured approach in understanding, diagnosing and management of the commonly encountered spine pathologies in daily routine practice. It also aims to sensitise them with the latest advances and global best practices to manage these conditions.

Learning objectives

- Understanding pathophysiology and clinical presentation of common spine disorders.
- Mastering diagnosis and interpretation of imaging in daily practise.
- Application of Clinicoradiological parameters in decision making and management of these conditions.
- Introduction to latest advances like spine endoscopy and robotics and navigation in management of spine pathologies.

Date and timing

November 1, 2025
20:00 to 23:50 pm

Face-to-face

- 4-hour event held at a hospital auditorium.
- 20-40 participants max.

Venue

Indian Medical Association
I.M.A Bhawan, 110, Civil Lines (Near Prabha Cinema),
Bareilly 243001, Uttar Pradesh

Target participants

Who should Attend :-

- MS ortho / MCh Neuro PG students
- MS Ortho / MCh Neuro - Consultants, Spine fellows, Spine surgeons
- Medical Professionals treating spinal conditions

Goal of the seminar

The target participants being young established and prospective Spine surgeons, individuals with foundational understanding of Spine affections and are looking to expand their knowledge in the diagnosis and management of commonly encountered spinal conditions and understand the latest technological advancements available for treatment.
